

Meeting Agendas:

1. Introduction
2. GM Message
3. Company Vision and Mission
4. Our Services
5. Our Safety Procedures.
6. REA Logs.
7. List of Projects

A spiral-bound notebook with a pencil and a pair of glasses. The notebook is open to a page with the word "Agenda:" written in cursive and underlined. Below it, the numbers 1 through 6 are written in cursive, corresponding to the list on the left. A black pencil lies horizontally across the bottom right of the page. A pair of black-rimmed glasses is positioned in the upper right corner of the notebook.

Agenda:

1.

2.

3.

4.

5.

6.

A close-up photograph of a single, light-colored puzzle piece. The piece is centered in the frame, and the word "INTRODUCTION" is printed in a bold, black, sans-serif font across its middle. The puzzle piece has a classic interlocking shape with rounded edges. The background is a soft, out-of-focus light beige color, suggesting a larger puzzle or a textured surface. The lighting is even, highlighting the texture of the puzzle piece and the sharp edges of the text.

INTRODUCTION

Reem Emirates Aluminium (REA)

Specialist in design and manufacture of custom-made, unitized curtain wall panels. The aluminum curtain wall factory built within an area of 80,000 sqm can produce more than 5,000 sqm of curtain wall panels each month. REA has two additional facilities for glass fabrication and metal cladding at total build-up area of 13,000 sqm. All designs are created in house and supervised by our design specialists from concept design to installation providing integrated technology solutions for clients.

Reem Emirates Glass (REG)

Was set up in May 2009, and is one of the largest glass processors in Abu Dhabi, producing heat treated, double-glazed/insulated and laminated glass. REG has a production capacity extending from 12,000m2 per month for laminated glass to 48,000m2 per month for glass cutting.

REEM EMIRATES METALS (REM)

Was formed to service the growth in demand for architectural finishes and metal works in the gulf Region, North Africa and Europe, and now boast being one of the top 3 global leaders with state of the art facilities and production lines. Reem Emirates Metal (REM) was set up in February 2009 and has a production capacity of 3,600 tons per annum, creating stainless steel architectural metal products to complement Reem Emirates Aluminium REA's core business.

Reem Emirates Cladding (REC)

Is a subsidiary of Reem Emirates Aluminium, was established over a 4,000m2 area to complement operations of Reem Emirates Aluminium (REA). The facility is a fully equipped cladding fabrication factory in the industrial city of Abu Dhabi with technically advanced CNC machines, vertical 3/4 saws, roll bending machines and all other ancillary machinery required for fabrication of composite panels. REC has the capacity to undertake aluminum cladding projects of any magnitude and complexity supported by an experienced technical team of architects, engineers, supervisors, and skilled workers. REC executes the cladding works to international standards by giving the utmost importance to quality and unparalleled workmanship.

COMPANY OVERVIEW

Reem Emirates Aluminium (REA) is a subsidiary of Trojan Construction Group. Since our inception in 2006, we have established ourselves as a trusted provider of sustainable façade solutions. Our core business is designing and manufacturing custom-made, unitized curtain wall panels for eco-friendly building façades. With a philosophy to do things right the first time, we have embarked on a mission to become the numero uno choice globally when providing façade solutions.

Our state-of-the-art aluminum curtain wall factory built within an area of 80,000 sqm can produce over 65,000 sq.m of curtain wall panels each month. We also have two additional facilities for glass fabrication and metal cladding in a total build-up area of 13,000 sqm.

Our designs are created in-house and supervised by our design specialists – from concept design to installation – who are experts in providing integrated technology solutions. At REA, we have a highly-skilled and experienced management team supported by qualified workers who work closely with the project architects to deliver cutting-edge design concepts. All our employees have always been the source of our success and growth of the organization. That's why, we are committed to empower the employees by focusing on their continuous improvement.

We have a reputation for coming up with practical design solutions that are suited to the requirements of our clients since our focus is on fusing sound engineering and design with appealing architectural aesthetics. Our dedication toward high-quality goods, custom services, and productivity, combined with our expertise in green façade technology, along with our ISO 2018-4500 ISO 2015-9001 ISO 2015-14001 certifications make us the ideal choice for clients seeking innovative and sustainable design solutions.

Here are some of the significant projects that Reem Emirates Aluminium has successfully completed:

Hospitality – Five Hotel, Vida Residence, IBIS Hotel, La Ville Hotel

Commercial – Dubai World Trade Centre, City Walk

High Rise Towers – Palm Tower, Nations Tower, Tiara Towers, Etihad Towers, Al Jazeera Towers, ADDAX Towers, Address Residences, City of Lights, The Views – Saraya, Il Primo

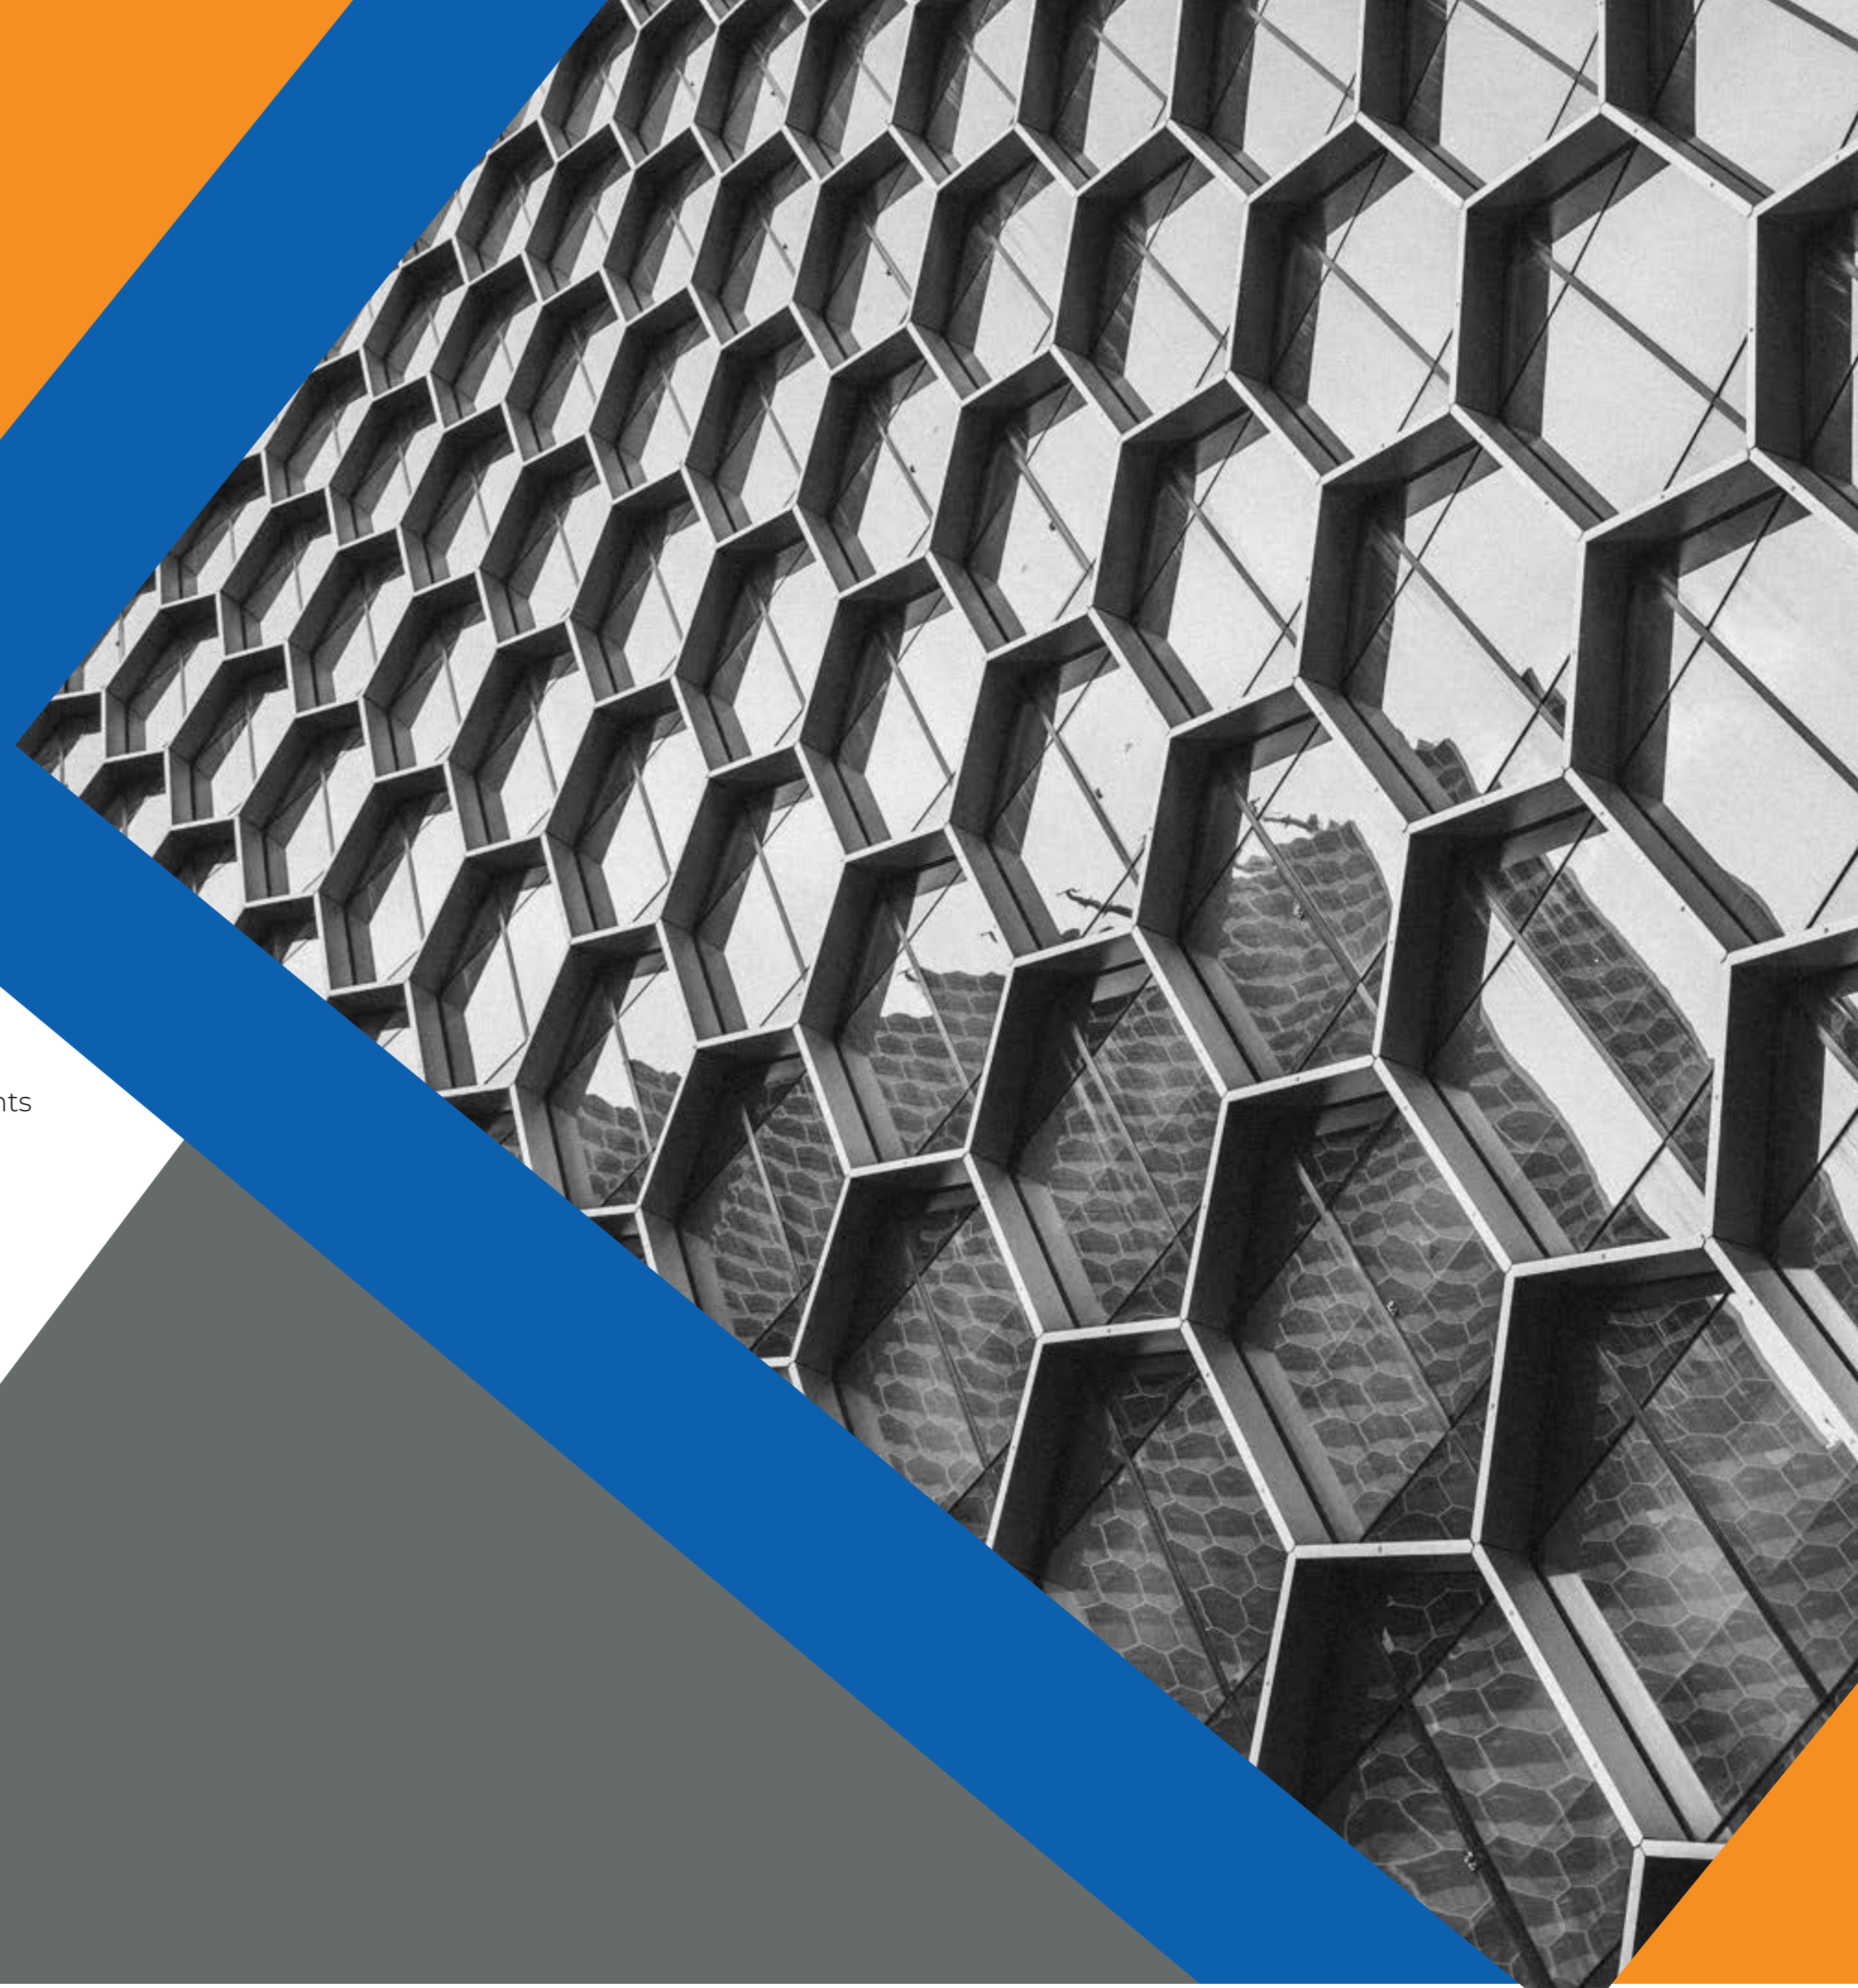

Medium Rise Towers – Marina Square

Education – Masdar Institute of Science and Technology (MIST)

Cultural – Opera Grand

Airport – Midfield Terminal Building (Abu Dhabi International Airport)

International – SABIC HQ, Sky Walks KAFD, MBS Crowne Plaza, Axis Tower, The Gate Towers – New Alamein, Red Sea Airport - Shura Island

GM MESSAGE

Today, it is recognized that achieving greater and more sustained levels of operational excellence is the result of embracing core principles of our continuous improvement culture. Operational excellence is the result of successfully adapting to the changes that continually occur in and around our organization.

AIM 'All Ideas Matter' suggestion scheme is extracted from our organization core values:

- * People
- * Teamwork
- * Innovation
- * Ethics
- * Client Satisfaction
- * Efficiency
- * Agility
- * Accountability

A successful suggestion system starts with a culture committed to building collaboration, teamwork and employees empowerment by focusing people on continuous improvement.

Along with improved performance and success, we aim to:

- Better utilize talent of the employees
- Encourage creativity and innovation practices within organization
- Improve decision making and communication
- Increase job satisfaction
- Build team spirit and teamwork-based culture
- Improve organizational efficiency

REA employees always have been the source of our success and growth of the organization.

Submitted suggestions will be reviewed and evaluated quarterly and owners of the approved / implemented ideas will be recognized and rewarded.

We will always welcome your bright ideas and appreciate the time and effort you spend.

Naser Al Marzooqi
General Manager

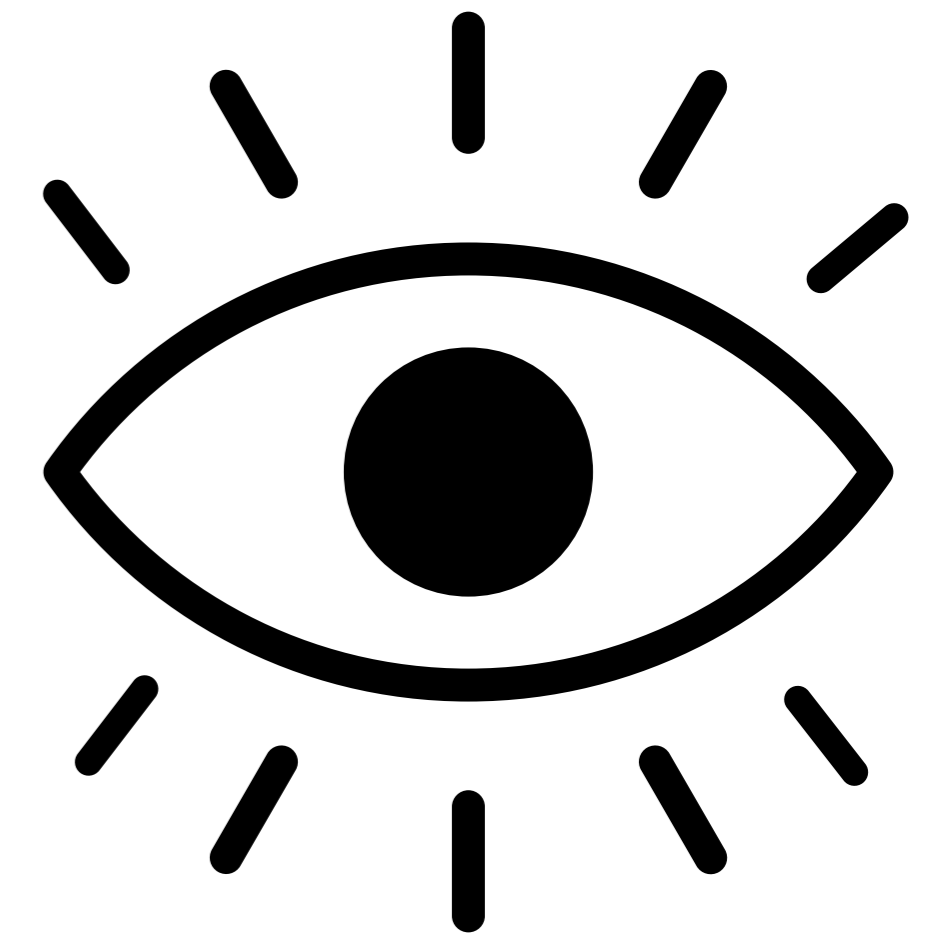

VISION AND MISSION

MISSION

To be number 1 and the clients 1st preference in providing façade solutions globally.

ISO 4500-2018

ISO 9001-2015

ISO 14001-2015

5.2 REA IMS POLICY

	IMS POLICY	Code : PO-TOP-01 Rev : 05 Issued : 22 Oct 2019
---	-------------------	--

To maintain regional leadership while striving to become a global leader in modern façade engineering, Reem Emirates Aluminum (REA) is dedicated to providing superior solutions for energy efficient, environment friendly envelope systems through Research and Development, production and cost innovation whilst achieving added value to our customers.

Our aim is to achieve customer satisfaction through proactively understanding their emerging needs, complying with internationally recognized quality standards, industry accepted practices and adhering to statutory and regulatory requirements. Every individual and team is committed to "doing the right things right from the first time, every time".

REA ensure pollution prevention, conservation and preservation of the environment by providing products that comply with the environmental standards with the concept of Green Building Technology.

It is in our goal in our working environment to operate safe and sound and comply with relevant legislation, regulation and other applicable HSE requirements.

Our philosophy is to focus on prevention and pro-active involvement and action is expected from all employees for we believe that QHSE is the responsibility of everybody.

Our view on Integrated Management System implementation is one that encourages employee contribution to continual improvement of ISO 9001, ISO 14001, ISO 45001 and OSHAD-SF by way of hands on experience, knowledge sharing all culminating in a healthy, professional and transparent working environment.

Naser Al Marzaqi
General Manager

5.3 REA QUALITY POLICY

QUALITY POLICY

To maintain regional leadership while striving to become a global leader in modern façade engineering, Reem Emirates Aluminium (REA) is dedicated to providing superior solutions for energy efficient, environment friendly envelope systems through Research and Development, production and cost innovation whilst achieving added value to our customers.

Our aim is to achieve customer satisfaction through proactively understanding their emerging needs, complying with internationally recognized quality standards, industry accepted practices and adhering to statutory and regulatory requirements. Every individual and team is committed to "doing the right things right from the first time, every time".

Our view on Quality Management System implementation is one that encourages employee contribution to continual improvement by way of hands on experience, knowledge sharing all culminating in a healthy, professional and transparent working environment.

Aligned with Reem Emirates Aluminium (REA) Business policy, this Quality policy is periodically reviewed to ensure continuing suitability.

Naser Almarzoqi
General Manager

5.4 Occupational Safety & Health Policy (R02)

	OSH POLICY	Code : PO-TOP-02 Rev : 02 Issue : 14-Mar-2013
---	-------------------	---

OCCUPATIONAL SAFETY AND HEALTH POLICY

Reem Emirates Aluminum (REA) is committed in providing safe and healthy working environment for its employees.

Our commitment to OSH system implementation is to:

- Comply with Occupational Safety and Health International Standards, relevant legislation, regulation, and other applicable requirements.
- Ensure that OSH systems are developed and implemented, reviewed and revised to reflect the changing conditions and information.
- Ensure OSH objectives and targets are monitored, regularly reviewed and continually improve.
- Provide necessary OSH instructions, training, information, education, and supervision to our employees to ensure their Health and Safety and that of others in the working environment.
- Prevent & minimize numbers of work-related injury and ill health incident for all employees.
- Prevent transmission of communicable diseases to all employees and other associated parties.
- Implement resilient communication method that effectively provides feedback to our OSH Committee from employees, customers and other interested parties.
- Protect its employees, contractors, visitors and any other associated parties.

At REA it is our goal in our working environment to operate safe and sound, prevent pollution and provide products with the concept of Green Technology.

Trojan Construction Group is one of the biggest and leading construction firm in the region, based in Abu Dhabi, comprising of several industry-leading companies.

- Trojan General Contracting (specializing in mass housing projects)
- National Projects & Construction (specializing in high-rise and infrastructure projects)
- Royal Advance Electro-Mechanical (specializing in electro-mechanical works)
- Reem Emirates Aluminium & Glass Factory (specializing in glass façade and metal cladding)
- Hitech Precast & Block Works Factory (specializing in concrete products)
- Al Maha Modular Steel Structures (specializing in steel structure fabrication)
- Reem Ready Mix Concrete Factory (specializing in concrete and plastering material)

Trojan Construction Group is committed to the promotion and elevation of local businesses, and strongly believe in giving back to the community. Our contribution dates back to when the nation was formed, and we continue to empower, drawing the skyline for years to come – both locally and abroad.

It all stems out from diversity, that's been at the heart of Trojan Construction Group's vision, and by pooling the resources of these specialist companies, we can offer our discerning clients a cohesive and unified construction entity that can deliver turnkey projects to a pre-agreed deadline and budget.

Diversity has always been at the heart of Trojan Construction Group's vision, and by pooling the resources of these specialist companies, it can offer discerning clients a single and cohesive construction entity that can deliver turnkey projects to a pre-agreed deadline and budget.

Today, we are considered as one of the fastest-growing construction firms in the UAE, employing mover 22,000 multi-national workforce personnel, and with plant machineries worth over AED 950 million. Trojan General Contracting has shaped the industry and grown across the Middle East, Africa, and Europe - successfully completing many significant buildings that have added to the UAE's cosmopolitan skyline, and has forged a reputation for reliability, and first-class service.
